Subject: A NEW solution to the school shooting crisis

Date: Wednesday, September 13, 2023 at 1:56:06 PM Eastern Daylight Time

From: RTS Tactical

To: Damian Ross

Dear parents, guardians, and civilians...

This is a difficult topic to discuss but it's one that needs to happen because we know that safeguarding your loved ones, especially your children, is your #1 priority.

With the alarming rise in **school violence occurrences** involving rifles, we understand the need for reliable protection.

But here's the problem...

Historically, every school shooting has been done with Rifle Ammunition, such as **M855 (green tips)** and **7.62x51 (M80)**.

...And most backpack armor is **NOT** rated to effectively withstand these rifle-rated rounds.

So, we developed back-pack armor that can:

The RTS Tactical Level III+ Rifle Special Threat Backpack Armor Inserts

We're excited to introduce our brand-new backpack armor, designed to offer unparalleled protection against rifle-rated threats.

These armor inserts are:

- **Lightweight:** Starting at 6lbs
- **Discreet:** Fit into most standard backpacks
- **Effective:** Against rifle-threats

And most importantly, they offer peace of mind.

for the wearer and loved ones.

It's unfortunate that these are the times we're living in - but RTS Tactical stands committed to innovating and developing products that actually stand up to the threats we are currently facing.

Whether you're safeguarding your loved ones or protecting your community, we're here to support you every step of the way.

Sincerely,
RTS Tactical
